

# Prion at preschool

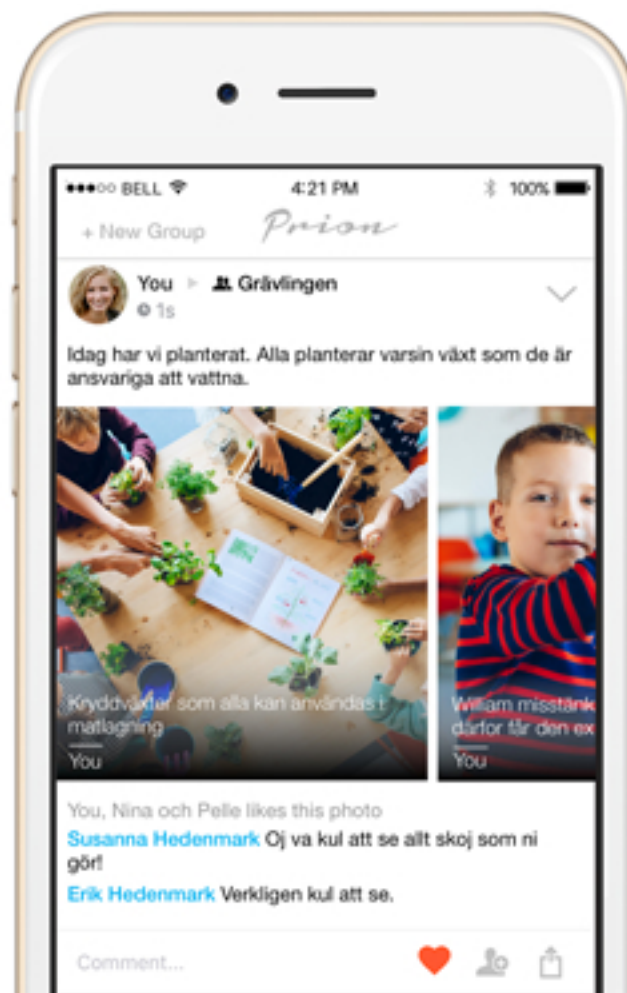

Prion is an app for private photo sharing and documentation

- ✓ Parents can follow their child's development - directly in their phone
- ✓ Fast and convenient for teachers - more time for the children
- ✓ Photo rights are preserved and unnecessary exposure is prevented

1. Activities happen at preschool

2. Teachers document the activities in the app

3. Parents get a daily insight

"It's a very easy way to keep up with what's going on in preschool.  
Parents can follow the entire department as well as their own child."

-Annelie Medoc, Skurups municipality
